

# Tashyn Wallace

Full Stack Software Engineer

Final year computer science student experienced in the software engineering of modern web and mobile applications.

## Personal Info

**Website Portfolio**  
<https://tashyn.com>

**E-mail**  
wallacetashyn@gmail.com

**Phone Number**  
(876) 423-8763

**GitHub**  
<https://github.com/tashynw>

**Linkedin**  
<https://www.linkedin.com/in/tashyn-wallace-695229228/>

## Skills & Interests

TypeScript  
Next.js  
Strapi.js  
Nest.js  
PostgreSQL  
React Native  
Flutter  
AWS  
NoSQL databases  
Python  
Java  
C#

## Experience

- February 2023 - present **Software Engineer**  
*Intern at Norus Technologies, Jamaica*
- Developed and maintain multiple web and mobile applications concurrently using tools such as TypeScript, Next.js, Strapi.JS, Nest.js and React Native
- August 2022 - December 2022 **Software Developer**  
*Particular Presence Technologies, Jamaica*
- Developed full-stack features for existing projects using multiple AWS features and front-end technologies such as Vue.js and React.js as well as finding and resolve bugs within them
- May-August 2022 **Software Developer**  
*Intern at Particular Presence Technologies, Jamaica*
- Developed numerous full-stack features for existing and in-development projects using TypeScript, multiple AWS features and front-end technologies such as Vue.js, React.js and Next.js.

## Education

- 2021 - 2024 **Bsc. Computer Science, University of the West Indies**
- Computer Science student with a current GPA of 4.08

## Side Projects

- 2023 **QwizLab (Next.JS)**  
*Link: <https://qwizlab.com/>*
- A web app created with TypeScript and NextJS that uses OpenAI to generate quizzes from user-inputted notes. It also allows you to create, edit, and delete questions, as well as edit and export quizzes.
- 2022 **Caribbean Violence Tracker (Next.JS/Node.JS)**  
*Link: <https://caribbean-violence-tracker.vercel.app/>*
- A web crawler app made with TypeScript, Node.js and Next.js that fetches news from reliable sources in multiple Caribbean islands relating to gun and other violent crimes that affect their citizens.

## Awards and Certifications

- October 2023 **Karl Robinson Award**  
*Computing Department, University of the West Indies*  
Presented to the final year computing student with the best academic performance in Computer Science (highest average in first and second year)
- October 2023 **Dean's Honor Roll**  
*Faculty of Science and Technology, University of the West Indies*
- June 2022 **AWS Partner: Accreditation (Technical)**  
*Amazon Web Services*
